

Electrical installation

We offer the following services:

- ❖ Certificate of Compliance
- ❖ Generator installations
- ❖ Rewiring of existing domestic, commercial and industrial installations
- ❖ New Electrical Installations Domestic, Commercial and Industrial
- ❖ Geyser/heat pump water heater
- ❖ Connecting of UPS ,Repair solutions

No matter how large or small your electrical need might be...

The safest way to get it sorted is to leave it for your electrician to deal with.

The last thing you would want is a future electrical fire or further damage to be caused by an electrical repair that was not done by a professional.

Electrical repair work is very sensitive and needs to be handled by a trusted electrician.

Electric Specifications:
 Power Output: 5kW (6.3 kVA)
 Rated Voltage: 220V (Single Phase) @ 50 hz
 Current Output: 22.7A
 AVR FITTED
 DC Output: 12V 8.3A **MGENER / 604 R13 995.00**

Power Output: 5kW (6.3 kVA) Rated
 Voltage: 380V (Three Phase) @ 50 hz
 Current Output: 7.6 A per phase AVR
 FITTED DC Output: 12V 8.3A

MGENER / 605 R14 950.00

Generator power

Power cuts need not mean work at your business or home comes to a standstill. Silver Solutions has been designing energy efficient solutions for eight years to suit everyone's needs. Using advanced soundproofing and cooling technology, we build custom housing to silence any generator. Call us for a quotation.

MAC-AFRIC™ 12.5 kva (10 KW) Standby Silent Diesel Generator (380V)
 A larger 2-cylinder, direct injection engine powering an alternator providing up to 10 kw of power. Ideal for offices or larger homes.
 Electric Specifications: **MGENER /111 R46 995.00**

MAC-AFRIC™ 6.5 kVA (5 KW) Standby Diesel Generator
 A diesel powered electricity generator. Open type design enables easy maintenance and better cooling. Ideal from providing backup power at remote locations. **MGENER-656 R11 950.00**

Automatic Transfer Switch (ATS)

Diesel and Petrol Generator

Series -12vdc,400v 1p65/Y-series

- ❖ Changeover can be manually operated and locked
 - ❖ Roted for onload switching
 - ❖ Build-in counter of number of complete operations
 - ❖ Mains & Generator voltage 400v 50Hz control voltage 12 vDC with battery buck up
- Suitable for Domestic/commercial / industrial

- ATS-MGENER/604 40A 28kva R4 358.00**
- ATS-MGENER/605 63A 44kva R5 847.00**
- ATS-MGEN/656 40A 28kva R3 857.00**
- ATS-MGN/111 125A, 87kva R9756.00**

All service work to be carried out complies with the Occupational Health & Safety Act of 1993
