

COMPANY PROFILE

Good day,

Silver Solutions is one of Gauteng's fastest-growing electrical and air-conditioning installation and maintenance companies. We are based in Johannesburg and specialize in all electrical installations.

We aim to become the leading service provider in our selected market through the highest level of commitment and to provide the best services at the best prices without compromising quality.

Through leadership and creativity, we will respond to the technological needs of sustainable development for our society by providing practical, comprehensive and innovative solutions on all our assignments.

Our clients

We believe client satisfaction with our service is critical to our future, and that it can only be achieved through innovative and cost effective solutions, based on a full understanding of the task and the allocation of appropriate resources to meet each client's needs.

Our business

We believe excellence can only be realized through professionalism, good engineering practice and a consistent focus on quality by implementation of a quality management system involving all levels of management and employees. We are 100% BEE.

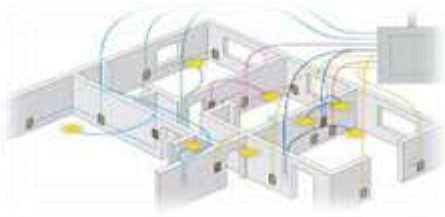

Our team

We believe our primary resources and the foundation of our success is our motivated, quality staff, working in a stimulating environment where professional development is paramount, and employee performance is objectively and consistently stimulated, recognized and rewarded.

Please feel free to contact Silver Solutions to set up an appointment if you require our services, which are listed below.

Green Regards,
Peter

Electrical installation

We offer the following services:

- ❖ Certificate of Compliance
- ❖ Generator installations
- ❖ Rewiring of existing domestic, commercial and industrial installations
- ❖ New Electrical Installations Domestic, Commercial and Industrial
- ❖ Geyser/heat pump water heater
- ❖ Connecting of UPS /inverter solutions
- ❖ Air conditioner/Refrigeration Repairs
- ❖ Gas installation/Repairs
- ❖ Plumbing /Repair

No matter how large or small your electrical need might be...

The safest way to get it sorted is to leave it for your electrician to deal with.

The last thing you would want is a future electrical fire or further damage to be caused by an electrical repair that was not done by a professional.

Electrical repair work is very sensitive and needs to be handled by a trusted electrician.
