Samsung BORACAY Non- Inverter

AR09TSBN	WHITE	9 000 BTU	R 12 950.00
AR12TSBN	WHITE	12 000 BTU	R 13 675.00
AR1812TSBN	WHITE	18 000 BTU	R 20 850.00
AR24TSBN	WHITE	24 000 BTU	R 21 780.00

Samsung smart inverter Maldives

AR09JSFPA	9 000 BTU	- R 17 800.00
AR12JSFPA	12 000 BTU	- R18 900.00
AR18JSFPA	18 000 BTU	- R23 750.00
AR24JSFPA	24 000 BTU	- R 25 800.00

JET-AIR non-inverter (R410A) FIXED SPEED

Model		
Jasa-H09A4/SUE	9 000 BTU	- R 9 850.00
Jasa-H12A4/SUE	12 000 BTU	- R 10 650.00
Jasa-H18A4/SUE	18 000 BTU	- R 13 550.00
Jasa-H24A4/SUE	24 000 BTU	- R 16 950.00
JasaH30A4/SUE	30 000 BTU	- R 17 270.00

JET-AIR MID WALL SPLITS NEW LIBERY INVERTER

Model		
Jasa-H09A4LFI	9 000 BTU	- R 11 250.00
Jasa-H12A4/LFI	12 000 BTU	- R 12 950.00
Jasa-H18A4/LFI	18 000 BTU	- R 15 950.00
Jasa-H24A4/LFI	24 000 BTU	- R 19 650.00

Room Size	Air-con Size
-----------	--------------

18 m ²	9 000 BTU
24 m ²	12 000 BTU
36 m ²	18 000 BTU
48 m ²	24 000 BTU
60 m ²	30 000 BTU

WE SUPPLY INVERTER AND NON INVERTER AIR CONDITIONING UNITS

The biggest difference between these two types of aircon lies in the functionality of the inverter, the best tool to save electricity. The inverter in Inverter aircon helps to control the speed of the compressor motor, thereby changing the temperature as per requirement. This can reduce the electricity consumption of your air conditioner while in Non-inverter air-con's the compressor motor it operates at complete capacity or non at all and switched off. This can cause unwanted current consumption and high electricity bill.

Pipes not exceeding 3m

- Evaporator (indoor- unit) mounting
- Compressor/Condenser (outdoor-unit) mounting
- Electrical connections to existing power point up to 3 meters for Air- conditioners from 9 000 BTU to 24 000 BTU (Room sizes up-to 48 m²).
- Installation time takes 2-3 hours.
- Power point from nearest plug point
- Gas R410/tanking 70x40x1
- Auto-door unit power isolator

Installation Excludes:

- Condensation pump
- Electrical connections to existing power point more than 5 meters (Charged per meter thereafter) for room sizes up-to 48 m².
- Required by law, electrical connections for air-conditioners above 24 000 BTU (room sizes exceeding 48 m²) to be carried out by silver solutions qualified electrician from distribution board (not included in installation charges).

Ducting split air conditioner

Ducted Split Air conditioners Ultra slim design Fresh air intake Fresh air intake hole reserved, it's convenient to connect Built-in water drainage pump (Optional) the built-in pump can lift condensing water up to 800mm high from

UNDERCEILING AIRCONDITIONER

UNDERCEILING AIRCONDITIONER Dual-direction swing, wide swing angle Vertical and horizontal swing function make it possible to blow air to every corner of the room Ultra slim design Flexible installation Install it vertical

4 Way Cassettes

4 Way Cassette 6-segment heating exchanger design Compact structure Innovative exchanger design enlarge the heat exchange area Heat exchanging efficacy increased by 10% to 15% Fresh air intake Fresh
