

Monitoring and switching device

Silver solutions G-switch -22 GSM module gives you control at fingertip

With the ability to on/off generator be send SMA alert power status all via your phone

GSM lets you look after home or business from just about anywhere

Electrical Engineering

Automatic Transfer switch series -12vdc, 400v, 1p70 MGENER -605

- Built-in counter of number of complete operation
- Changeover can be manually operated and lock for emergencies and maintenance
- ATS Enclosure \GW complete 5 pole multipolar connectors 500v
- Rated for on load switching
- 1x70AMP 22 kw coil 230 \600v Contactors
- Delay on-load \Gen-power when voltage and frequency stabilized
- Fuse protection included for controller and power supply
- Over-load line protective device mains
- Mains Generator voltage 400v 50hz control voltage 12 voltage coil 240v
-

We specialize in: generators, installation, automatic switch-over for uninterrupted power supply, and general maintenance ECB N: GS02276
